MANAGE ORDERS

Companies consistently look for ways to streamline business processes, reduce costs and improve reporting. Procurement is no exception. Today's procurement professionals are looking for business partners that can help automate the entire purchasing process. Agilix Solutions offers you multiple options to place orders electronically and we can integrate with a wide range of business procurement systems such as Ariba, Coupa, EqualLevel, Oracle, SAP, Sciquest/Jaggaer, and more. You always have options to get connected with Agilix Solutions. We can receive your orders via cXML, OCI or EDI saving you time, resources, and money.

GETTING STARTED:

Our goal is to make integration simple. If eProcurement is a high priority for your company, especially as you review and consolidate vendors, we can support your goals. Your Agilix Solutions Account Manager will meet with you to ask some preliminary questions to better understand your purchasing needs. Once identified, a representative from our eCommerce team will contact you, gather the required technical information for integration and support the set-up and implementation process.

COMMERCE EXTENSIBLE MARKUP LANGUAGE (CXML) OPEN CATALOG INTERFACE (OCI)

We accept your XML/cXML data directly into our eCommerce platform saving you considerable data entry time and resources. Additionally, we can offer cXML or OCI integration through a PunchOut Catalog. We support both Type 1 and Type 2 Punchout catalog integrations.

ELECTRONIC DATA INTERCHANGE (EDI)

Are you looking for a time saving option to handle more frequent transactions with Agilix Solutions? Is your company set-up to send and receive EDI transactions? We can accept transmissions in EDI X.12, PDF, CSV, XLSX, XLSB and other preferred formats, via FTP connection or email. We can also offer a cXML format through our website.

MANAGE INVOICES
