SOLUTIONS

▶ Online Options

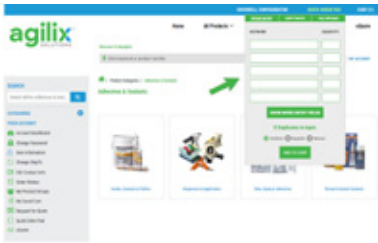

Agilix Solutions understands getting the products and information you need for a project or job should be fast, easy and convenient. That's why we designed our online portal and mobile app around the specific business requirements of today's busy industry professionals. When you sign up for an online account with Agilix Solutions, you receive instant access to customer specific pricing, real-time inventory levels, product specification information and important account information such as order status.

Save time and consolidate your purchases with Agilix Solutions. You'll have instant access to more than 70 product categories including the latest products and technologies in **Automation, Electrical, Industrial, Datacom, Power Transmission, Process, Safety, Lighting** and **Solar**. Plus, we will keep you updated on new products added to inventory and special clearance options.

To get started, visit my.goAgilix.com/register. If you're a current customer, we'll match your online registration request with your active account information. If you are new to Agilix Solutions, you can order via credit card or submit an online credit application to be considered for open account terms.

Experience for yourself three primary advantages of my.goAgilix.com – speed, convenience and flexibility.

QUICK ORDER PAD

When you know the exact part numbers you need and want to check out quickly, the Quick Order Pad offers the perfect solution. If you have a more detailed Bill of Material use the copy and paste or file upload option. Quick Order Pad is a handy, time saving option for items you frequently order. Enter part numbers, with or without dashes, and the quantity you need, verify your products, click "add to cart," then check out. Simple, fast and convenient.

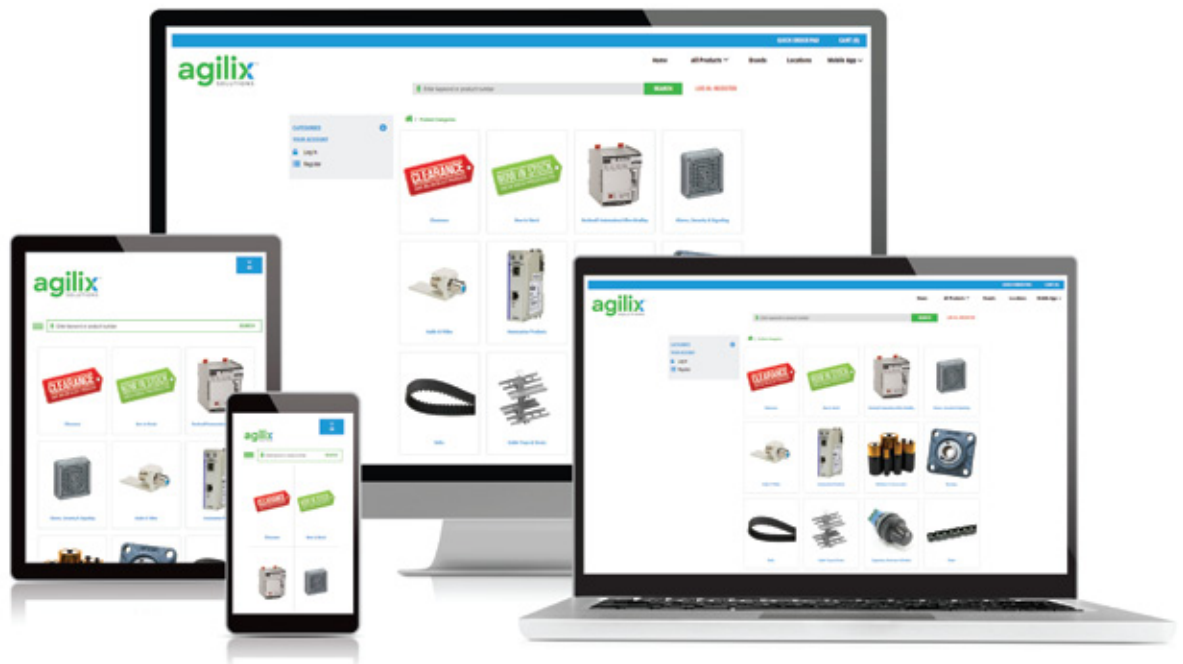

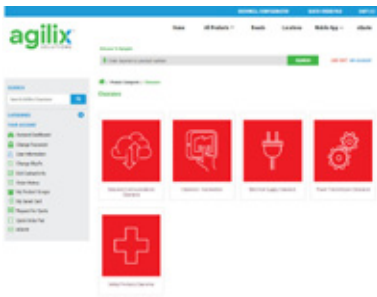

eQUOTE

Looking for a more convenient way to access and manage all of your Agilix Solutions quotes? We have the solution. Quotes are available on shop.goAgilix.com for your review up to 60 days. You can access individual quotes by date or purchase order number, view quote details, add to cart and checkout. Plus, eQuote provides you a convenient option to order non-stock and special-order products online. Save time by accessing quotes based on your schedule.

PUNCHOUT

PunchOut automates ordering directly from your internal procurement system while delivering a modern shopping experience. It links your procurement system and our eCommerce platform via cXML providing you with current pricing, product availability, and detailed product information. After the shopping cart is returned to your procurement system, your buyer proceeds through their normal workflow steps and submits the order using a variety of electronic options including EDI, cXML and OCI.

CLEARANCE ITEMS

As we update and replace older inventory or discontinued items, we add these products to our clearance section. There are a variety of products available in Automation, Datacom, Electrical, Industrial, Lighting, Power Transmission, Process Control, Safety and Solar. Click the clearance icon to view all current options for your next project.

CREDIT CARD PAYMENT

Don't have open credit terms with Agilix Solutions? You can still order product from us using your Mastercard, Visa, American Express or Discover card.

ORDER CONFIRMATIONS, SHIPMENT TRACKING & DELIVERY NOTIFICATIONS

Eliminate any second guessing and reduce follow-up phone calls. You'll receive an email confirmation after placing your order and an email with tracking information if the order was shipped via UPS or FedEx. Let Agilix Solutions help you track your orders in real time.

REQUEST QUOTE

Don't see what you need online? Need a unique item for your next job or project? Click on the "Request Quote" option on our website, provide us with a part number and manufacturer name and we'll research availability and pricing options for you. We'll respond back to you within one business day.

RETURN REQUEST

Click on the "Return Request" option on our website to request a Return Goods Authorization (RGA) from our Customer Service team. Provide us with the necessary product details and submit your request online. We'll respond back to you within one business day with a RGA reference number and additional instructions. Specific terms and conditions apply. See website for details.

▶ Speed

We offer several online options designed to quickly get you to the information you need.

PREDICTIVE SEARCH AND SEARCH WITHIN

It's a helpful way to search for products. The more you type the more refined the results. Just click on the correct option and view product details. Narrow down your initial search criteria even further by using the Search Within option under a specific product category.

PRODUCT ATTRIBUTES

Quickly narrow your product search results by selecting key product attributes. Product attributes will vary and are unique to specific product categories. Examples include: manufacturer, material, size, finish, voltage and more. Attributes help you target the exact product you need by narrowing down your search requirements to a refined list of options.

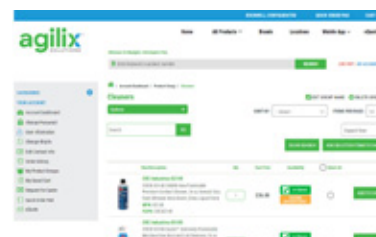

PRICE & AVAILABILITY

You'll have instant access to your specific account pricing and on-hand inventory within our branch distribution network. The green "In Stock" icon indicates the item's real-time inventory stock status. For many products we display stock available from the manufacturer.

CUSTOMER PART NUMBERS (CPN)

You can add your own part number to any product on our website. This allows you to search by your specific product number.

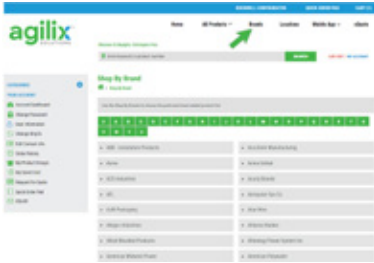

PRODUCT GROUPS AND/OR SAVED CARTS

Product groups are the perfect solution when you order the same products or bill of materials (BOM) on a consistent basis. Set-up an unlimited number of these groups and include as many products as needed within each group. Create personalized listings for different product categories such as wire and cable, cleaners, tools, conduit and fittings, lamps and fixtures. In addition, you can save your carts in your profile and have them available for future reorders. Easily add or delete items to your saved carts anytime.

► Convenience

We've included a variety of online features designed to make your online experience convenient and simple. Our goal is to provide you with easy-to-use online tools.

SHOP BY BRAND

Agilix Solutions is an authorized distributor of products from hundreds of leading industry brands. Select a specific brand to view their products available for online purchase. For additional options, visit our website goAgilix.com, navigate to Solutions, then select Line Cards for an expanded view of our brand partners.

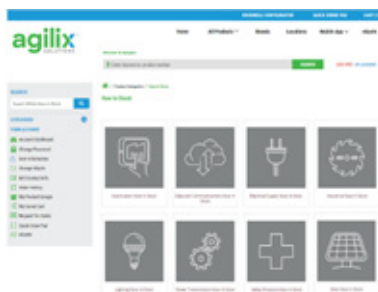

ORDER HISTORY

Get instant access to every order you've placed with Agilix Solutions. View the status of all your current open orders – whether your company ordered online, fax or by phone. Plus, Accounts Payable can verify order payment status for all recent orders.

Access a complete list of orders by date range or enter a single order number. View specific order details. Sort your order history by order number, entered date, purchase order number or order status including: *ordered*, *picked*, *shipped*, *invoiced* or *paid*.

Open a past order, select products, modify quantities, and re-submit to cart. You can re-order products directly from the order history section.

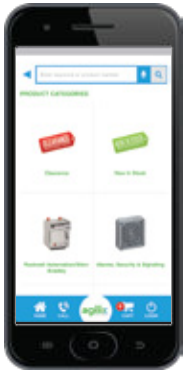

NOW IN STOCK

We work with leading industry manufacturers and are constantly evaluating our inventory to present you the most current products and technologies available in Automation, Datacom, Electrical, Industrial, Lighting, Power Transmission, Process Control, Safety and Solar. Click the Now in Stock icon to get a quick view of recent items added to our expansive inventory.

► Flexibility

Whether you're in a warehouse, on a job site, or just need to place an order after normal business hours, Agilix Solutions offers online options that meet your growing expectations for information on the go.

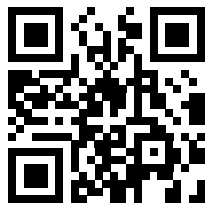

RESPONSIVE DESIGN

We understand customers are more mobile and need the flexibility to view online tools in a variety of locations and platforms. If you are not currently using our mobile app, our website is configured to adapt to your devices. From desktop to laptop, tablet to mobile phone, be assured you will have a user-friendly experience.

MOBILE APP (APPLE & ANDROID)

Agilix Solutions' new mobile app offers convenient features for individuals on the go. Access your important account information from your Apple and Android devices. Order, check account information, create product groups or register for an upcoming event. From your smartphone, you will have access to additional features such as Photo Inquiry (take a picture of a product and send to our sales team for review and quotation) and Scanner (scan product bar codes from your phone and add to cart).

DOWNLOAD OUR EASY-TO-USE APP

To get started, visit the Google Play Store or Apple Store to download.

SERVICE AND SUPPORT

Contact your local Agilix Solutions team for assistance with your online order.

For technical questions regarding your online account, please contact us at 800-333-3122 and ask to speak with a member of the eCommerce support team.
