

# Save up to \$4,000 with our Versiv™ Inflation Buster Offer.

Purchase a qualifying DSX™ and/or OptiFiber® Pro tester between April 3, 2023 and July 28, 2023 and get up to \$4,000 in cash back.

Cable, connectors, racks – if you can get them, the price keeps going up. That's inflation. To help you fight back, Fluke is offering cash rebates for purchases of selected DSX CableAnalyzers and OptiFiber™ Pro OTDR's.

## Here's how to get your cash:

1. Purchase a qualifying new DSX CableAnalyzer or OptiFiber Pro from an authorized US or Canadian distributor **between April 1, 2023 and July 28, 2023.**
2. Submit a copy of your invoice at [www.dsxinflationbusterplus.com](http://www.dsxinflationbusterplus.com)
3. Collect your payout based on the model and date purchased as per the table below. **Add Gold Support to your purchase to increase your rebate by \$250!**

Model	Cash Rebate	Additional Rebate if Purchase includes Qualifying Gold Support
DSX-602	\$500	\$250 (CAN: \$350)
DSX2-5000	\$1,500	
DSX2-5000QI Kit	\$1,750	
OptiFiber Pro	\$1,750	

\*For a complete list of eligible models and offer details, visit: [www.dsxinflationbusterplus.com](http://www.dsxinflationbusterplus.com)

To apply for your rebate and SmartLoop test cord, visit: [www.dsxinflationbusterplus.com](http://www.dsxinflationbusterplus.com)

**The OptiFiber Pro Series** OTDRs make novices experts and experts faster. Automated trace analysis and setup supports applications including data centers, PON and outside plant. Advanced features include Manual Expert mode, gesture-based in-depth trace analysis.

**Act fast** and we'll supply one of our compact, rugged launch cords for our timesaving, patented SmartLoop™ bi-directional testing. (while supplies last.)

Schedule and complete an Optifiber Pro demo and **get a free FiberLert.**

**The DSX CableAnalyzer** is the efficient choice for copper cable certification, designed with our project-based UI that cuts certification costs up to 65% as compared to older testers. Report your all your results with the industry's de facto standard LinkWare software or LinkWare Live cloud service with over 80 million results uploaded to date.
