

INTRODUCING THE NEW **PROSITE LED STREETLIGHT**

The standard in high-efficient outdoor site illumination, Dialight's LED Streetlights consume at least 50% less energy than traditional HID lighting sources to drastically reduce electricity costs while greatly reducing carbon emissions. With every product L70 rated for over 100,000 hours and backed by our exclusive 10-year warranty, Dialight's LED Streetlights virtually eliminate lighting maintenance for over a decade. Delivering cutting-edge performance, dependability and outstanding visibility, our LED Streetlight range offers industry-leading technology with a fast ROI.

FEATURES & BENEFITS

- Non-Hazardous and Hazardous
- UL1598/A UL844 CE ENEC RCM IECEx/ATEX Zone 2, 21 and 22
- From 12,000 - 30,000 lumens
- Up to 155 lm/W
- 120-277 VAC, 347-480 VAC
- Multiple optical patterns available to accommodate a variety of applications

10 Year Warranty

Easy Installation

Multiple Optical
Patterns

Range of CCTs
2200, 2700, 4000, 5000K and Amber

The new ProSite Streetlight by Dialight is an exceptionally efficient and durable solution engineered for the harshest environments. Delivering high performance with a sleek, compact design, it utilizes Dialight's proprietary molded optics to maximize light output. With lumen output ranging from 12,000 to 30,000, multiple optical patterns and correlated color temperatures, the ProSite Streetlight meets a broad range of site road, perimeter, and parking lot lighting applications. This streetlight provides clear, near-daylight visibility to ensure safe and secure operations on worksites. It is ideal for Oil & Gas, Petrochemical, Chemical, Metals, Mining, and other Heavy Industrial applications demanding superior outdoor lighting performance.
