

UNIVERSAL PADS L91003, L70393, L70399, L70392, L91001, L91005, L90907, L90902, L70372

Issue: Potential safety hazards are present around machines or in storage areas where leaks, drips, sprays or spills are most likely to occur.

Solution: A spill control plan should be developed with absorbent products readily available to control daily leaks and spills around your plant or to use in case of an emergency.

Description: OIL-DRI® Universal Pads should be a part of every spill control plan. This material is made from chemically inert polypropylene and can absorb up to 15 times its weight in fluid. Use to safely absorb all fluid leaks and spills including most acids and bases. Strong bonded layers allow fluid to spread through the material quicker for the best absorption rate. Available in various weights, with or without reinforced cover stock.

What is cover stock?

Spunbond cover stock is an ultra-light weight polypropylene fabric that adds an additional layer of strength and durability to melt blown material.

ITEM#	GRADE	DESCRIPTION	SIZE	PERF	QTY	PKG
L91003	Light Duty	Bonded w/ Cover Stock	15" x 19"	7.5"	200 pads	Box
