TUESDAY, JUNE 24, 2025 — BARTLETT, TN
WEDNESDAY, JUNE 25, 2025 — JONESBORO, AR

Join the Rockwell Automation AI Roadshow! Explore the cutting-edge world of industrial automation and artificial intelligence with Rockwell Automation's latest innovations. Dive deep into our groundbreaking products: Guardian AI, Logix AI, Vision AI, and FactoryTalk Design Studio with Copilot.

Why Attend?

Discover Guardian AI: Learn how FactoryTalk Analytics Guardian AI provides predictive maintenance insights to reduce unplanned downtime and optimize maintena nce planning.

Experience Logix AI: See how FactoryTalk Analytics Logix AI empowers control engineers with machine learning for production optimization, enabling real-time predictions and process improvements.

Unveil Vision AI: Witness FactoryTalk Analytics Vision AI's no-code approach to vision inspection, enhancing product quality and maximizing yield through advanced anomaly detection.

Leverage FactoryTalk Design Studio with Copilot: Understand how FactoryTalk Design Studio Copilot uses generative AI to streamline workflows, generate PLC code, and enhance collaboration.

Event Highlights
- Interactive Sessions: Engage in workshops and panel discussions with industry experts.
- Live Demonstrations: Experience hands-on demos.
- Networking Opportunities: Connect with professionals, innovators, and thought leaders in industrial automation.

Don't miss out on this unique opportunity to be at the forefront of AI innovation. Register today and join us for an unforgettable experience!
