

# PowerGain™ High Amperage Single-Pole Connections

Designed to meet the AI power demands of next-gen data centers, PowerGain™ delivers the reliable, high-amperage connections required to stay running at peak performance, enhanced with key requirements for safety, scalability, and seamless integration.

## Single-Pole Features

- UL-listed solution
- Impact-resistant and non-conductive nylon housing
- Highly conductive, solid one-piece copper contacts
- Ground and neutral devices are keyed differently than line devices to prevent mismatching
- 180-degree rotation and locking detent helps prevent inadvertent disconnection
- Non-metallic retaining screw secures contact in housing
- Double-set screw termination for cool running termination
- Plugs and connectors have three high performance strain relief clamps to accommodate wide wire range
- Panel mount frame offers pre-populated, voltage-specific frame assemblies available for installation convenience
