Build Real Motion Control Skills in One Day

Mechatronics HQ

Limited lab stations available! Secure your spot today!

Led by Agilix Solutions specialists and supported by Rockwell Automation, **MechatronicsHQ** is a hands-on training that delivers the knowledge and experience needed to confidently work with motion systems. If you design, maintain, or implement motion solutions, this session is built for you.

WHAT YOU WILL GAIN:

- Clear understanding of motion fundamentals and system behavior
- Proven approach to motor sizing and configuration
- Insight into integrated motion and tuningless capabilities

HANDS-ON EXPERIENCE:

- Live work with ArmorKinetix®, Kinetix® 5700, and GuardLogix
- Hands-on practice with real-world applications

INCLUDED:

- Expert instruction
- Practical lab time
- Breakfast and lunch

Where:
Agilix Solutions
Training Center
7979 Brother Blvd.
Bartlett, TN 38133
